Description:

About the Author Rudi London was born upstairs at his parent's home in the city of Nedstrand, on the southern west coast of Norway in the year of Rudolph. His father, Far, had called in the midwife and his mother, Mor, gave birth. The birthing process went flawlessly up to a certain point. This is discussed in his book, 3 Angels (July 2010). After beginning a career in computers, he joined the Norwegian Air Force to fly fighter jets, but his poor eyesight kept him right there on the ground. After completing military duty, his computer systems boss thought he needed more knowledge and sent him to evening classes at BedriftsAkonomisk Institutt. Life got so academically sophisticated that he went rock & rolling for a while. Via a career in warehouse automation and later photography,

he finally settled down with typing up his very first novel, *The Operator Is Calling*, and the rest is history.
