Description:

From the Inside Flap

America on the Brink

The Obama administration is conspiring to transform America. They want to remake our America—of free enterprise, faith, and personal freedom—into their America—of endless bureaucracy,

secularism, and state control—despite overwhelming opposition from the American people. How is this possible? How has the Obama team succeeded in adopting widely despised policies like the massive stimulus bill and the healthcare takeover? How could such a radical president and his congressional leaders get elected and then take a center-right country in a socialist direction bitterly opposed by most Americans? Former Speaker of the House Newt Gingrich has the answer: the Left have built a secular-socialist machine out of corruption, lust for power, and sheer ruthlessness, and are using it to steamroll over the will of the people. In this book, Gingrich reveals:

- * How the secular-socialist machine gained power through deception and outright lies
- * How the machine shuts the American people out of the legislative process
- * Why some of our most powerful leaders seek to banish religion from public life
- * How the machine uses taxpayer money to pay off its supporters and punish its opponents
- * How we can replace, not reform, Obama's socialist programs

Exposing the mortal threat now facing America, *To Save America* offers concrete strategies for dismantling the machine and replacing it with policies and institutions that work. But we must act fast, Gingrich warns, or our children will inherit a secular, socialist America transformed beyond recognition.

From the Back Cover □Freedom is a fragile thing and is never more than one generation away from extinction. It is not ours by inheritance; it must be fought for and defended constantly by each generation, for it comes only once to a people. Those who have known freedom and then lost it have never known it again.”

—Ronald Reagan

□The preservation of the sacred fire of liberty, and the destiny of the republican model of government, are justly considered deeply, perhaps as finally, staked on the experiment entrusted to the hands of the American people.”

—George Washington

□The liberties of our country, the freedom of our civil Constitution, are worth defending at all hazards; and it is our duty to defend them against all attacks.”

—Samuel Adams

□God grants liberty only to those who love it, and are always ready to guard and defend it.”

—Daniel Webster
